

Year 6
Curriculum Coverage

Amber/ Coral

World War I

Maths

This term we will be focusing on measure. We will be converting between different units of measure and solving problems involving area, perimeter, volume and time.

Children should be revising their times tables at home **EVERY DAY**.

English/ Reading

This term we will be reading the text 'Wonder' and writing diary entries, play scripts and narratives around the text. We will also look at SPAG and focus on assessing and editing work.

Children should be reading for at least 15 minutes **EVERY DAY** with an adult.

Computing

We will be working on recording data and learning to create spreadsheets. There will also be a focus on Mathematics.

Science

We will be learning about light. We will be focusing on investigating how light travels and how light helps us to see.

Homework

Homework will be given out on Thursdays and it will consist of reinforcement activities regarding English and Maths. The homework can be found on the Earlham App.

Geography/ History

We will be learning about World War I including the reasons for the outbreak of war and the impact of the war on citizens.

RE

We will be learning about what it means to belong to a religion with a focus on Christianity and Hinduism.

PSHE/ Philosophy

We will be looking at recognising likes and dislikes, what is fair and unfair, and what is right and wrong. Children will be learning to share their opinions on things that matter to them and explain their views.

PE

Amber - Mondays and Fridays
Coral - Thursdays and Fridays
Please remember to bring your full kit.

Calling all parents!

How can you help? If you have any experiences or skills that link with our topics, please come and speak to us.

Art/ D/T

We will be completing art activities linked to our topic of World War I.
