

Year 1
Curriculum Coverage
Summer 2

Maths

We will be working on time, addition, subtraction, multiplication, division and fractions.

Children should be practising their addition and subtraction using the 100s square.

English

We will be working on information texts, instructions, and recounting stories.
We will be revising plurals and past tenses.

Children should be reading for at least 10 minutes EVERY DAY.

Topic

Science – We will be learning about the different seasons in a year.

Topic – We are learning about the oceans and seas around the world.

Art and DT – In art we are practising how to draw different faces so we can better understand emotions.

Music – We have been practising multiple different songs and will be performing them in our class.

Computing - We are learning to use and create different codes using different programs.

R.E./PHSE – We are learning about the importance of different relationships.

PE

Dance- We will continue learning how to move our bodies in time with different songs.

Games skills – We are practising different activities for the upcoming Sports Day.

HOMEWORK:

Out on Thursday, back on Monday.
