

Earlham Primary Summer Learning Projects

Year 4

Below are some projects for you to do over the summer holidays. These are all linked to things that we have learnt together this year in the classroom and in our google classroom.

| Maths | English | Science | Computing |
|---|--|--|--|
| Design a board game to help other children learn the times tables. Remember to include the division facts too. This should be a game you can play with 2 or more people. Test it out on people in your household and make changes to your design if needed. | Make your own chapter book. Write a story about a child living in Roman times. Remember what we have learnt this year about the way Romans lived. What could the problem be and how is it solved? Remember to have a clear beginning, middle and end. Add illustrations to your book. | Think about what we learnt about sound this year. Using the things you have in your house make three instruments; one string, one percussion and one wind. Create a piece of music with the help of others in your household. Record yourselves playing the instruments. | You have been asked to design the new IPHONE by Apple. Create a user manual for the new phone which explains all the key functions and APPS. Your manual should include sub-headings, instructions, diagrams and captions. |
| Wellbeing | Geography | Art | PE |
| Choose a day and time and do a video diary at this time every week. In your diary entry you should include things you have done that week and how they made you feel. Think of some things that you would like to do for the following week. See if you can try something new every week! | Using your map skills, create a map for a new town. The town must have enough homes for at least 20 families, a school, a police station, a supermarket, a restaurant, a post office, a bank, a park, a hospital and any other shops you would like to include. Remember to use a map key. | Have a look at some of the art produced by the pop artist Roy Lichtenstein. Use his techniques to create your own picture of a coast line, a river and an urban scene. | Keep a daily fitness diary of the exercise you do including what the exercise was and how long you did it for. Some things you could do: dancing, running, skipping, cycling, work-outs. |

Stay safe, stay healthy and we will be back in September.
